

Get vaccinated against COVID-19. It is the most important thing you can do this summer.

The vaccine is free and older people should book their appointment first. When it is your turn to book your appointment, log into www.1177.se or call 018 617 35 00.

When is it my turn to book an appointment?

You can find information about what age groups can book an appointment at the moment on the following web pages:
